DEAN CLOUGH

Dean Clough is so much more than a place to work. It is a community where people come to visit, eat, drink, shop, celebrate, recharge and even marry! The variety and vibrance of the mills have to be seen to be appreciated.

There is a fabulous array of local independent food and drink establishments ranging from cafés and real ale pubs to fine dining.

The site boasts an abundance of arts and culture, with 6 galleries, a theatre, 2 resident theatre companies, a permanent art collection with over 300 original works on display, a dedicated arts mill and studios which are home to 25 artists and numerous arts organisations.

In addition to the Prestige Flowers Gift Shop, the Design Shop and a convenience store, there are beauty salons, hairdressers, an interior designer, hypnotherapy and reiki, a children's gymnastics facility and a karate dojo for those who prefer a workout!

At the heart of the site is The Arches, a spectacularly stylish industrial venue, perfect for incredibly individual weddings and exclusive events. With a highly experienced events team, The Arches is a much sought-after venue for charity balls, proms, private parties and corporate events, seating up to 300 people.

There is also a nursery - rated outstanding by Ofsted - a taxi rank, a Royal Mail post office, an estate agent and conference and meeting rooms.

These are the ingredients which create a community, providing the social spaces to foster a tangible sense of belonging and place.

The History of Dean Clough

Dean Clough is a place name and both words Dean and Clough, are old English words which in essence mean valley and ravine.

These magnificent mills, which adopted the name of the place in which they were built, were constructed between 1840 and 1870 by the Crossley family, who founded their Crossley Carpet empire here in 1822.

They were once the largest carpet manufacturers in the world and were an exemplar of Victorian industry and endeavour.

At their peak they were world leaders in their market, but ultimately – 160 years after their inception – they succumbed to the changes in market forces and closed the mills in 1982.
